

## Woodland Creatures Craft Activities

This printable includes a fun forest-themed craft and a puzzle sheet for you to complete. You will need to gather cardboard, yarn, craft or construction paper, scissors, and glue. We hope you have a hooting good time!

### Yarn-wrapped Fox Craft

1. Cut a triangle out of cardboard (an old cereal or cracker box is perfect for this).
2. Tape or glue one end of the yarn onto the back of your cardboard triangle.
3. Wrap the yarn all around the cardboard triangle making sure to cover different areas each time. (To make this step easier, you can cut little notches around the triangle for the yarn to sit in as you wrap it.)
4. When you have finished wrapping your yarn, tape or glue the end onto the back of the cardboard.
5. Cut two triangle ears from orange paper and two smaller triangles for the inner ears from white paper.
6. Glue the ears onto the back of the fox's head.
7. Lastly, on the front of the fox's head, glue on the eyes and a pom-pom for the nose.

## Woodland Creatures Puzzle

Unscramble the words below to spell different woodland creatures.  
Use the pictures at the bottom as clues if needed.
