Take our new 'Stocking for the Winter' Tour

Our Stocking for the Winter self-guided tour highlights apple, meat and corn preservation while showcasing outdoor exhibits and artifacts such as the smokehouse, general store and cider press.

Farmers worked diligently through the spring and summer to make sure they had a successful harvest in the fall. The vegetables, fruits and grains grown would sustain the farm family and their animals through the winter. Without them, they might have starved. This tour has accompanying scavenger hunt worksheets that make it a fun activity for

children and ideal for homeschooling curriculum.
